

REMARKS

In response to the second Restriction Requirement of July 30, 2003, Applicants hereby elect Invention I corresponding to Claims 1-18, drawn to a multi-chip memory device. Method Claims 22-28 have been canceled without prejudice to the filing of one or more divisional applications. Applicants are not traversing this Restriction Requirement, because Applicants agree that patentably distinct inventions are present. The title has been changed to reflect the elected device claims.

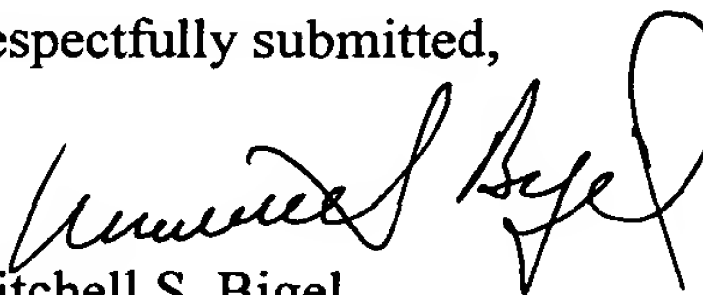

Applicants also acknowledge that Claims 19 and 21 have been withdrawn from consideration. However, as noted in Applicants Response to Restriction Requirement of April 23, 2003:

...Applicants respectfully submit that Claims 1-17 and 22-26 are generic to all of Species I-III. Accordingly, upon allowance of any of these generic claims, Claims 19, 21 and 28 are also entitled to consideration. Accordingly, for purposes of this response, Applicants elect Species II, but respectfully request examination and allowance of all of pending Claims 1-28.

Accordingly, upon allowance of any one of Claims 1-18 or 20, Claims 19 and 21 also are allowable.

In view of the above, Applicants respectfully request examination of Claims 1-18 and 20, and allowance of Claims 1-21.

Respectfully submitted,

Mitchell S. Bigel
